CareOS

Compliance-First Multi-Center Child Care Platform

The operating system for modern child care organizations. CareOS unifies compliance, tuition automation, executive visibility, and multi-center oversight into one real-time platform.

Built for Regulated Growth

Early education is one of the most regulated industries in the country. CareOS was engineered to support private operators, franchises, Head Start programs, school districts, and federally funded organizations navigating complex regulatory and financial environments.

- State licensing alignment and inspection-ready reporting
- Federal and Head Start documentation support
- CACFP and meal tracking compliance
- Multi-center governance and executive dashboards

Platform Capabilities

- Real-Time Ratio Compliance Monitoring
- Smart Tuition Automation & Integrated Payments
- Multi-Center KPI Rollups & Executive Visibility
- Staff Certification & Background Check Tracking
- Financial Reporting & Subsidy Reconciliation
- Parent Communication & Classroom Management Tools

Why CareOS

Legacy child care software was built for single locations. CareOS was built for scale. From executive dashboards to compliance heatmaps, operators gain real-time visibility across every classroom, center, and region.

- Enterprise-grade security and role-based access control
- Automated billing with reconciliation workflows
- Inspection-ready compliance reporting
- Scalable infrastructure for growing organizations

Schedule an Executive Demo to see how CareOS transforms multi-center operations.
